ABOUT THIS INSPECTION

The purpose of this inspection is to assure government, parents and the public of the quality of childcare and, if applicable, of nursery education. The inspection was carried out under Part XA Children Act 1989 as introduced by the Care Standards Act 2000 and, where nursery education is provided, under Schedule 26 of the School Standards and Framework Act 1998.

This report details the main strengths and any areas for improvement identified during the inspection. The judgements included in the report are made in relation to the outcomes for children set out in the Children Act 2004; the National Standards for under 8s day care and childminding; and, where nursery education is provided, the *Curriculum guidance for the foundation stage*.

The report includes information on any complaints about the childcare provision which Ofsted has received since the last inspection or registration or 1 April 2004 whichever is the later.

THE QUALITY AND STANDARDS OF THE CARE

On the basis of the evidence collected on this inspection:

The quality and standards of the care are satisfactory. The registered person meets the National Standards for under 8s day care and childminding.

At the time of the inspection there were no children on roll. Ofsted judges that the provider remains suitable to provide care.

WHAT SORT OF SETTING IS IT?

The childminder registered in 2003. She lives with her husband, and two children aged three and six years in the Newall Green area of Manchester.

The whole of the property with the exception of the front bedroom is used for childminding purposes. There is a fully enclosed rear garden available for outside play.

The family have a dog.

She is a member of the National Childminding Association and holds a BTEC First in children's care, learning and development and also has a Cache level 3 certificate in Childminding Practice.

The childminder is registered to care for a maximum of four children at any one time but is not caring for children at present. When a provider does not have children on roll at the time of the inspection, inspection judgements are based on evidence gathered from discussions with the provider and an inspection of the premises, equipment and relevant documentation.

As there are no children on roll, the quality of the provision cannot be judged better than satisfactory because there is no reliable evidence on which to assess its impact on children.

Working smoke alarms are fitted on all levels of the home, these improvements enhance children's opportunities and safety.
