ABOUT THIS INSPECTION

The purpose of this inspection is to assure government, parents and the public of the quality of childcare and, if applicable, of nursery education. The inspection was carried out under Part XA Children Act 1989 as introduced by the Care Standards Act 2000 and, where nursery education is provided, under Schedule 26 of the School Standards and Framework Act 1998.

This report details the main strengths and any areas for improvement identified during the inspection. The judgements included in the report are made in relation to the outcomes for children set out in the Children Act 2004; the National Standards for under 8s day care and childminding; and, where nursery education is provided, the *Curriculum guidance for the foundation stage*.

The report includes information on any complaints about the childcare provision which Ofsted has received since the last inspection or registration or 1 April 2004 whichever is the later.

THE QUALITY AND STANDARDS OF THE CARE

On the basis of the evidence collected on this inspection:

The quality and standards of the care are satisfactory. The registered person meets the National Standards for under 8s day care and childminding.

At the time of the inspection there were no children on roll. Ofsted judges that the provider remains suitable to provide care.

WHAT SORT OF SETTING IS IT?

The childminder registered in 2000. She lives with her partner and four children aged 13, seven, four and two years. The family have a pet cat and a dog. The whole of the premises are used for childminding. This consists of a lounge / diner, a kitchen and a downstairs toilet. On the first floor there are three bedrooms and a bathroom. There is a fully enclosed garden available for outside play. They live within walking distance of local schools, shops, parks and other amenities. The childminder has an appropriate childcare qualification and is a member of the National Childminding Association. The childminder may care for three children aged under eight years.

No children on roll

When a provider does not have children on roll at the time of the inspection, inspection judgements are based on evidence gathered from discussions with the provider and an inspection of the premises, equipment and relevant documentation. As there are no children on roll, the quality of the provision cannot be judged better than satisfactory because there is no reliable evidence on which to assess its impact on children.

Improvements since the last inspection

At the last inspection the childminder agreed to increase the children's awareness of emergency evacuation procedures, review the hygiene procedures when the cat is being fed, ensure the first aid box is replenished and to record concerns about a child in a confidential manner.

The childminder has adequately addressed the recommendations. Hygiene procedures have improved as the cat is fed when childminding children are not present. The first aid box is comprehensively stocked and regularly replenished. The childminder maintains full and confidential records on the children as she uses the toolkit published by the National Childminding Association. Older children practise the emergency evacuation plans and draw up their own poster with rules to keep themselves safe.

Complaints since the last inspection

Since the last inspection, there have been no complaints made to Ofsted that required the provider or Ofsted to take any action in order to meet the National Standards. The provider is required to have procedures for dealing with concerns and complaints from parents and to keep a record of complaints and their outcome.
