ABOUT THIS INSPECTION

The purpose of this inspection is to assure government, parents and the public of the quality of childcare and, if applicable, of nursery education. The inspection was carried out under Part XA Children Act 1989 as introduced by the Care Standards Act 2000 and, where nursery education is provided, under Schedule 26 of the School Standards and Framework Act 1998.

This report details the main strengths and any areas for improvement identified during the inspection. The judgements included in the report are made in relation to the outcomes for children set out in the Children Act 2004; the National Standards for under 8s day care and childminding; and, where nursery education is provided, the *Curriculum guidance for the foundation stage*.

The report includes information on any complaints about the childcare provision which Ofsted has received since the last inspection or registration or 1 April 2004 whichever is the later.

THE QUALITY AND STANDARDS OF THE CARE

On the basis of the evidence collected on this inspection:

The quality and standards of the care are satisfactory. The registered person meets the National Standards for under 8s day care and childminding.

At the time of the inspection there were no children on roll. Ofsted judges that the provider remains suitable to provide care.

WHAT SORT OF SETTING IS IT?

The childminder was registered in 2001. She lives with her husband and two daughters aged 17 and 13 years in the residential area of Hull in East Riding of Yorkshire. The whole of the ground floor and the bathroom and toilet on the first floor of the childminder's house are used for childminding. There is a fully enclosed yard for outside play.

The childminder is registered to care for a maximum of six children at any one time and is currently minding no children under eight years that she is not related to. She also cares for children aged over eight years. The childminder walks to local schools to take and collect children and attends the local parent and toddler group.

No children on roll

When a provider does not have children on roll at the time of the inspection, inspection judgements are based on evidence gathered from discussions with the provider and an inspection of the premises, equipment and relevant documentation.

As there are no children on roll, the quality of the provision cannot be judged better than satisfactory because there is no reliable evidence on which to assess its impact on children.
