ABOUT THIS INSPECTION

The purpose of this inspection is to assure government, parents and the public of the quality of childcare and, if applicable, of nursery education. The inspection was carried out under Part XA Children Act 1989 as introduced by the Care Standards Act 2000 and, where nursery education is provided, under Schedule 26 of the School Standards and Framework Act 1998.

This report details the main strengths and any areas for improvement identified during the inspection. The judgements included in the report are made in relation to the outcomes for children set out in the Children Act 2004; the National Standards for under 8s day care and childminding; and, where nursery education is provided, the *Curriculum guidance for the foundation stage*.

The report includes information on any complaints about the childcare provision which Ofsted has received since the last inspection or registration or 1 April 2004 whichever is the later.

THE QUALITY AND STANDARDS OF THE CARE

On the basis of the evidence collected on this inspection:

The quality and standards of the care are satisfactory. The registered person meets the National Standards for under 8s day care and childminding.

WHAT SORT OF SETTING IS IT?

The childminder was registered in 2001. She lives with her husband and two children aged 18 and 15 in Woodford Green in the London borough of Redbridge. There is a dedicated large conservatory for childminding and children eat in the kitchen. There is a fully enclosed garden for outside play and a log cabin for play in summer.

The childminder is registered to care for a maximum of two children at any one time. The childminder attends a local carer and toddler group/childminders support group. She is a member of an approved childminding network.

The childminder is currently not minding. When a provider does not have children on roll at the time of the inspection, inspection judgements are based on evidence gathered from discussions with the provider and an inspection of the premises, equipment and relevant documentation. As there are no children on roll, the quality of the provision cannot be judged better than satisfactory because there is no reliable evidence on which to assess its impact on children.
