ABOUT THE INSPECTION

The purpose of this inspection is to assure government, parents and the public of the quality and standard of day care. When making judgements, inspectors have regard to how well the provider meets the National Standards for under Eights Day Care and Childminding. A list of these is attached. The report identifies strengths and areas for improvement.

This inspection report must be made available to all parents.

Information about the setting

Tangent House Day Nursery opened in 2003 and is a privately owned setting serving the local community and surrounding areas.

There are currently 63 children aged under 5 years on roll including 11 funded 3-year-olds and 6 funded 4- year-olds. Children attend for a variety of sessions. The setting does not currently support any children with special educational needs or who speak English as an additional language.

The nursery is open five days a week all year round from 07:30 to 18:30.

There are 11 staff who work with the children, of whom, 8 have early years qualifications to levels 2, 3 and 4. There are currently 2 staff attending training to level 4, 1 to level 3 and 3 to level 2. The setting receives support from a teacher/mentor from the Leicestershire Early Years Development and Childcare Partnership.

How good is the Day Care?

Tangent House Day Nursery provides good quality care for children. Staff have a good knowledge of the National Standards and supporting criteria and work well as a team, share a common purpose and are fully involved in planning, evaluating and developing practice. The comfortable premises provide a warm and caring environment offering good opportunities for a range of indoor and outdoor opportunities, including active play and relaxation. The operational plan works well in practice, procedures for deputising are effective and good use is made of staff, space and resources. Documentation is well organised and clearly presented.

Good attention is given to ensure the premises are safe and secure and effective policies and procedures are implemented to have a positive impact on the safety and welfare of the children. Staff have a high level of awareness of all risks to children's health and safety. They recognise children as individuals meeting their differing needs well, although they are not fully aware of disability legislation. Child protection procedures are established which are robust and fully understood to work in practice.

Varied play activities allow children to develop necessary and important skills and these are well planned and presented to offer exciting and interesting opportunities

to enhance their overall development. Behaviour is managed well and the children are confident and well behaved and respond to consistent expectations.

Staff build positive relationships with parents to provide consistent care for children and there are effective recording systems to ensure parental views are acknowledged and respected. Parents receive very good information about the setting with a clearly written and informative prospectus and good quality records, containing important information about children's individual needs are maintained. Staff are available to discuss issues on a daily basis and there are good opportunities to share children's progress.

What has improved since the last inspection?

Not applicable

What is being done well?

- The premises, including the outside area, are safe and secure and staff plan and organise the space and resources to provide an environment to nurture and encourage children's overall development.
- Children's individual needs are recognised and developed with the provision of a wide variety of play opportunities to support their progress. They have opportunity to select and access age appropriate activities both independently and with staff support to increase their confidence and self-esteem.
- Effective systems and routines ensure all areas accessed by children are clean and well maintained. Staff promote children's health, safety and welfare with clear understanding of comprehensive policies and procedures.
- Information relating to the setting is easily accessible to parents. Good relationships are maintained to provide effective channels of communication.

What needs to be improved?

- staff awareness and documentation to include reference to the Disability Discrimination Act 1995.
