## ABOUT THE INSPECTION

The purpose of this inspection is to assure government, parents and the public of the quality and standard of day care. When making judgements, inspectors have regard to how well the provider meets the National Standards for under Eights Day Care and Childminding. A list of these is attached. The report identifies strengths and areas for improvement.

This inspection report must be made available to all parents.

### Information about the setting

Cybertots on the Green was registered in March 2004. It is situated in the grounds of Drayton Green, opposite Drayton Green Primary School. The nursery is privately owned. There are transport links close by to London and the surrounding areas.

The nursery operates from a purpose built designed building on one level, there are two main rooms, in addition there is a kitchen, toilets and a office. There is a fully enclosed garden for outdoor play.

The setting has a total of 35 children on roll. There are no funded children attending. The nursery supports children with special educational needs and there are currently twenty three children attending who speak English as an additional language.

The nursery opens Monday to Friday from 08:00 to 19:00 all year round with the exception of bank holidays and occasional closure for a week at Christmas. The nursery caters for children who live within the local and surrounding area.

Nine staff work with the children. All the staff have an early years qualification. As well as English, some staff members speak French, Russian, Finnish, German and Polish. The setting receives support from the Early Years Development and Childcare Partnership (EYDCP).

### How good is the Day Care?

Cybertots On The Green provides good quality care.

All the staff have an early years qualifications and there are opportunities for on-going training. The premises are very welcoming and are clean and well maintained. There is a good range of policies and procedures in place and most relevant documentation is up to date.

The staff have a good understanding of ensuring children's safety in the nursery and when outside. Fire drills are held regularly to help ensure the safety of the children in an emergency. The staff team have a sound understanding of good hygiene practices within the nursery environment and practices regarding administering medicines and treating accidents are entirely appropriate as are child protection procedures. However, staff do not have knowledge of the procedure to follow if an allegation is made against them.

There is a wide range of toys and equipment which meet the children's individual needs and help to create a stimulating environment for the children. The selection is planned to enable children to progress in all areas of development as well as being fun for them to use. Many of the items reflect positive images of diversity within society. Staff are very focussed and interested in working directly with the children and behaviour is managed effectively.

Staff develop good relationships with parents. Good systems such as daily journals, parents notice boards and newsletters are used to keep parents informed about the provision and their children.

#### **What has improved since the last inspection?**
