ABOUT THE INSPECTION

The purpose of this inspection is to assure government, parents and the public of the quality and standard of day care. When making judgements, inspectors have regard to how well the provider meets the National Standards for under Eights Day Care and Childminding. A list of these is attached. The report identifies strengths and areas for improvement.

This inspection report must be made available to all parents.

Information about the setting

Chigwell and Hainault Synagogue Nursery is a committee run nursery. It opened in 1980 and operates from two rooms and a large hall within the Chigwell and Hainault Synagogue. A maximum of 52 children may attend the nursery at any one time. The nursery is open each weekday from 09:15 to 12:15 for 42 weeks of the year. All the children share access to a secure enclosed outdoor play area.

There are currently 36 children aged from 2 to under 5 years on roll. Of these, 21 children receive funding for nursery education. Children come from the local Jewish community. The nursery currently supports a number of children with special educational needs.

The nursery employs 9 staff. Six of the staff, including the manager, hold appropriate early years qualifications. Two staff are working towards a qualification.

The nursery receives support from the Pre-School Learning Alliance and the Agency for Jewish Education.

How good is the Day Care?

Chigwell and Hainault Synagogue Nursery provides good care for children.

The organisation of the setting is good and the operational plan is effectively implemented by the staff. The site is used well and the children and parents are made to feel welcome. The setting is visually reflective of an equal opportunities environment. Appropriate toys and equipment are in good supply throughout. Documentation required for children's details is in good order, though parents must sign their consent for staff to seek emergency medical advice or treatment if required.

The children are kept safe and secure on the site, though the register must show times of their arrival and departure daily. There is a written risk assessment in place and staff are vigilant in the supervision of the children. There are good procedures for staff to follow in case of an emergency. There are appropriate hygiene procedures in place and staff are fully aware of children's medical needs. The staff interact effectively with the children and get to know them as individuals. Staff are aware of their responsibilities with regards to protecting children, though they must obtain the contact details for the local Area Child Protection Committee.

There is a very full range of activities on offer which are fun and stimulating. The staff take steps to ensure that all children are valued and respected and that they have equal access to the activities. The staff effectively use positive methods to manage the children's behaviour, which is good. Snacks are healthy and drinks are made available to all children.

The staff create a warm and inviting environment for parents and children alike. Parents are kept informed about their children's activities through daily verbal feedback and staff are always available to speak to parents.

What has improved since the last inspection?

At their last inspection, Chigwell and Hainault Synagogue Nursery agreed to devise a complaints procedure which included the address and telephone number of the regulator. This policy is now in place.

The nursery also agreed to obtain written parental consent for seeking emergency medical advice or treatment if required. However, the wording currently used by the nursery is inappropriate for this consent.

What is being done well?

- The staff use a lot of praise and encouragement during the course of the sessions to promote good behaviour and help teach children right from wrong. This is reflected in the children's behaviour and the way they relate to staff and visitors to the club.
- Staff provide a wide range of activities which support the children's learning through play.
- The staff organise the premises effectively to ensure that the needs of each age group are met in specific rooms. Rooms are well furnished and resourced.
- The setting has well organised procedures in case of illness or injury to children and for giving medication.

What needs to be improved?

- procedure for completing the daily register
- procedure for ensuring that all required signatures of parental consent are obtained
- knowledge of the contact details of the local Area Child Protection Committee.
