### **ABOUT THE INSPECTION**

The purpose of this inspection is to assure government, parents and the public of the quality and standard of day care. When making judgements, inspectors have regard to how well the provider meets the National Standards for under Eights Day Care and Childminding. A list of these is attached. The report identifies strengths and areas for improvement.

This inspection report must be made available to all parents.

### Information about the setting

The Railway Children Day Nursery opened in 1992. It operates from a converted railway cottage in the Canley district of Coventry. The nursery serves children from Coventry and Warwickshire.

There are currently 34 children from birth to five years on roll. This includes ten funded three-year-olds and eight funded four-year-olds. Children attend for a variety of sessions.

The group opens five days a week all year round. Sessions are from 07:00 to 18:00.

There are ten part time and full time staff who work with the children. Half of the staff have early years qualifications to NVQ level 2 or 3. There is one staff member currently working towards a recognised early years qualification. The setting receives support from a teacher from the Early Years Development and Childcare Partnership. (EYDCP)

### How good is the Day Care?

The Railway Children Day Nursery provides satisfactory care for children. They are cared for in a safe and stimulating environment where the ethos of traditional values and care takes high priority. Space is used to enable children to experience a 'family' setting where children of all ages mix freely, but also provides times and areas where children are cared for by age and stage of development. Children access a wide range of activities both indoors and outside in the garden. Resources are plentiful and are accessible to children. However, some resources available to children and some visual images at the setting do not adequately reflect cultural diversity, disability and gender.

Health and safety is addressed well. Children are encouraged to have hygiene routines and three home cooked meals a day are available using only fresh foods. Children's social skills are encouraged and good manners are expected. Children make good relationships with other children and adults and they have clear boundaries and expectations for their behaviour. Staff constantly engage with children during play and activities.

The key worker system enables staff to make good relationships with parents. They receive daily written and verbal feedback about their child's progress.

Documentation and information about the setting is kept secure and is well maintained. The current system for registration of staff and children is not fully completed.

### What has improved since the last inspection?

Not applicable, as there were no actions raised at the previous Inspection.

### What is being done well?

- Children access a wide range of toys and activities both indoors and outside, which meet their developmental needs well. Children have a broad and balanced curriculum which takes account of children's ages and their individual needs.
- Children use available space effectively. They are able to be part of the whole group for part of the day but also have times when babies, toddlers and pre-school children go to appropriate rooms for more individualised care.
- Children have good relationships with each other and adults through constant interaction. Staff have high expectations of children's behaviour and adopt many traditional values, for example expecting good manners at all times. As a result children respond well and behaviour is good.
- Children are cared for in a safe environment where attention to safety issues is given priority. Toys and equipment are constantly repaired or replaced.
- Parents have good relationships with staff. They are welcomed and receive verbal and written information about their child's progress.

### What needs to be improved?

- the system used for registration to include times of arrival and departure of staff and children
- the access by the children to books and resources, which positively reflect cultural diversity, disability and gender.

### Outcome of the inspection

Satisfactory
