## ABOUT THE INSPECTION

The purpose of this inspection is to assure government, parents and the public of the quality and standard of day care. When making judgements, inspectors have regard to how well the provider meets the National Standards for under Eights Day Care and Childminding. A list of these is attached. The report identifies strengths and areas for improvement.

This inspection report must be made available to all parents.

### Information about the setting

Ashfield Day Nursery and Out of School opened in 2002. It operates from four rooms of a single storey building within the grounds of South Tyneside District Hospital. The nursery serves the local area.

There are currently 139 children from six weeks to seven years on roll. Children attend for a variety of sessions. The setting supports children with special needs and who speak English as an additional language.

The group opens five days a week all year round. Sessions are from 07:00 am until 18:00.

Five part time and twelve full time staff work with the children. Over half of the staff have early year's qualifications to NVQ level two or three. Four staff are currently working towards a recognised early years qualification. The setting receives support from the Early Years Development and Child Care Partnership. (EYDCP).

### How good is the Day Care?

Ashfield Day Nursery provides satisfactory care for children. Staff have opportunities to develop their skills through regular training, team meetings and appraisals. An induction procedure is in place however it is not effective. The adult to child ratios are adhered to well. The nursery children are grouped appropriately. The baby room is well organised, however the organisation and grouping of out of school children is inappropriate. There are good safe sleeping arrangements in place for all which are implemented well. The risk assessment procedure is not always effective. There is a variety of good quality equipment especially when meeting the physical needs of the younger children. Equipment is labelled and well maintained. There is inadequate appropriate outdoor equipment for the out of school provision. The documentation is well recorded and stored confidentially.

The premise is secure. Fire drill procedures are not clear nor are they regularly practiced. Medication and accident records are completed well; staff are aware of the procedure. Staff have appropriate first aid certificates. Nutritious and well balanced meals are provided. The babies are fed in accordance to their individual needs. The hygiene policy is not fully implemented. Children are respected and their individual needs met well; especially in the two younger rooms.

Nursery children engage in appropriate activities. Staff are good role models; they develop warm relationships with the children. The children's behaviour is good. The routine and care of the babies was effective to meet their individual needs. A worker is in place to support children with special needs. Child protection training is being provided for all staff.

There is effective communication strategies in place when working in partnership with parents.

#### **What has improved since the last inspection?**

Not applicable

#### **What is being done well?**

- Staff and children develop warm relationships. The routine and care of the babies is effective when meeting their individual needs. The children's home routines are displayed; staff implement them well. There is variety of good quality equipment to support the physical needs of the younger children. Good sleeping arrangements are in place. The children are comforted and reassured, regularly checked and a record is kept. A diary of activities is completed for children under two years.
- Staff are good role models; they value the children as individuals. Staff praise and encouraged the children well. The children respect the staff and their behaviour is good. They are beginning to understand the need to share, take turns and respect one another. The older children were able to negotiate with their peers without adult support. The behaviour management policy is implemented well.
- There is a variety of good quality equipment for the nursery children all of which is well maintained. Included within the resources is a variety of equipment to reflect equal opportunities. The majority of the equipment is stored in boxes which are well labelled and accessible to the children. There is good quality equipment available to support physical needs of younger children at meal times and when sleeping.
- The premise is secure, clean and well maintained. The environment is warm and welcoming. In the entrance area there is colourful displays of children's work, staff photo gallery, information boards and policies available to parents.
