

Smith's Wood Sports College

Windward Way, Smith's Wood, Birmingham, B36 0UE

Inspection dates 10–11 October 2012

Overall effectiveness	Previous inspection:	Satisfactory	3
	This inspection:	Good	2
Achievement of pupils		Good	2
Quality of teaching		Good	2
Behaviour and safety of pupils		Good	2
Leadership and management		Good	2

Summary of key findings for parents and pupils

This is a good school.

- Students make good progress and learn well in many subjects.
- Since the last inspection, the proportion of students achieving five A*-C grades in GCSEs, including English and mathematics, has steadily improved and is just below average.
- Students whose reading and numeracy skills are poor when they start in Year 7 catch up quickly and achieve demanding targets.
- Teaching is good across the school and some is outstanding. All staff have high expectations of students and encourage them to be successful.
- The school sets high expectations of behaviour and, consequently, students behave well.
- Students feel safe and are confident that bullying is dealt with swiftly.
- The sixth form is good. Effective action by the new leadership team has ensured that inexperienced teachers now fully understand the requirements of teaching and consequently in lessons observed learning was good. The subjects offered are now better matched to students' needs.
- The principal provides strong leadership and is well supported by other leaders and managers. Effective monitoring and performance management have had a positive impact on raising achievement and improving the quality of teaching.

It is not yet an outstanding school because

- In some lessons, opportunities are missed for students to develop independent learning skills.
- Students' attainment in mathematics, although improving, is not yet in line with the national average.
- Progress in the sixth form is not as strong as in Key Stage 4.

Information about this inspection

- The team observed 40 lessons, many of which were joint observations with the school's senior leaders. Inspectors carried out additional, shorter visits to lessons and held meetings with staff, students, parents and carers, the Chair of the Governing Body and a representative of the local authority.
- The inspectors looked at the school's plans for improvement, assessment information, school policies and governing body documentation.
- Six Parent View responses were looked at together with the results from the school's most recent survey from parents and carers.

Inspection team

Michelle Parker, Lead inspector	Her Majesty's Inspector
Nigel Boyd	Seconded Inspector
David Wolfson	Additional Inspector
Kathryn Brunt	Additional Inspector
Rosemary Barnfield	Additional Inspector

Full report

Information about this school

- This is a larger than average secondary school.
- The proportion of students known to be eligible for the pupil premium funding is much higher than average and represents almost half the school.
- The proportion of students supported by school action is low. The percentage of those supported at school action plus or with a statement of special needs is below average.
- The proportion of students from minority ethnic backgrounds is well below the national average, as is the proportion of students who speak English as an additional language.
- The school meets the current government floor standards, which set the minimum expectations for students' attainment and progress.

What does the school need to do to improve further?

- Ensure that achievement in mathematics matches that in English, by improving rates of progress through:
 - recognising that some students work more quickly than others, and adapting the pace of learning as necessary
 - ensuring that students can summarise key learning and learning objectives are re-visited at the end of lessons.
- Increase the proportion of outstanding teaching so that students have greater opportunities for higher challenge and independent learning.
- Build on the improvements in the sixth form to ensure that students' rates of progress are as high as those in the main school.

Inspection judgements

The achievement of pupils

is good

- Standards at the end of Key Stage 4 are rising. The attainment gap is closing rapidly for all groups of students, including disabled students, those who have special educational needs and those being supported by additional money through the pupil premium.
- The achievement of students who are on school action plus and those with a statement of special educational needs is good. The achievement of those students known to be eligible for pupil premium is also rising because their attendance has greatly improved and gaps in their learning in literacy are identified and speedily addressed. For example, through the 'building learning power' programme every Year 7 student is heard to read and given extra support and help to read confidently, if needed. The approach also strengthens students' capacity to work independently.
- Students enter school with standards of attainment, particularly in English and mathematics, which are well below average. The carefully-tailored extra support, combined with good teaching, ensures that all students are improving their literacy skills across all subjects.
- Students' progress in the lessons observed was good, corroborating the picture given by the school's data. Consequently, at the end of Key Stage 4 students' attainment in English is now above the national average. Attainment in mathematics is weaker but improving, although it is not yet in line with the national average.
- By the end of the sixth form standards are below the national average. The school has begun to address this. Expectations of what students understand and can do when starting the sixth form have been raised; the range of subjects and qualifications have been changed and are better matched to students' needs. As a result, students' progress is improving strongly.

The quality of teaching

is good

- The overall quality of teaching is good and some is outstanding. Inspection evidence supports parents' and carers' views that students make good progress and are taught well.
- All teachers have high expectations of students and as a result students enjoy learning and are interested. High-attaining students benefit from this and consequently students are increasingly successful in achieving higher grades at GCSE.
- Teachers regularly check on students' progress in lessons and swiftly address misunderstandings. Teaching assistants work very effectively, talking with students, checking their understanding and helping them 'stick at' the task.
- In some lessons chances are missed to encourage students' independent learning. Here, opportunities to tackle more open-ended tasks, which develop deeper understanding, and explanations of the next steps in learning are limited. In some mathematics lessons opportunities were missed for students to explain their learning and thus teachers were not always clear whether key learning was secure and understood.
- In the majority of lessons, the tasks provide sufficient interest and challenge to engage and stretch all students. However, this is not consistent in all lessons. Sometimes, the pace of

teaching is too slow for students who learn quickly.

- Sixth form teaching has improved because teachers understand how to plan work which challenges students and encourages their independent learning.
- Work in exercise books indicated consistent use of the school's marking policy and this supported students' learning. The most effective marking allowed students to promptly address weaknesses and gave careful guidance on how to improve their work. For example, in English detailed marking encouraged students to aim higher and build upon their successes.

The behaviour and safety of pupils are good

- Behaviour in lessons and around the school is good overall. Occurrences of more boisterous behaviour are rare and low-level disruption in lessons is uncommon. This is because behaviour is managed consistently; students are very positive about the recently introduced reward system. As a result exclusions are decreasing. Parents and carers commented on how the reward system helped them at home to encourage their child to behave well.
- Staff and students treat each other with courtesy and respect. Visitors are made welcome and shown good manners.
- Attendance has improved both in the whole school and the sixth form. All students are punctual and appreciate the importance of good attendance and being on time to lessons. The school carefully monitors the attendance of students with persistent absence and has begun to reduce it.
- Students commented that any form of bullying is rare. They are confident that if they have any worries there are staff they can talk to. Consequently, students feel safe. The school listens carefully to students and outside agencies and are quick to respond to any concerns which may affect students' safety. For example, the school is enabling students to access a confidential counselling service for support.
- Students understand how to keep themselves and each other safe. For example, in a Year 12 science lesson, students assessed the risks that might be involved in their practical investigation and ensured that chemicals were handled appropriately and carefully.

The leadership and management are good

- The principal, senior leaders and the governing body are highly ambitious in their pursuit of excellence and their drive to continue to improve the school. To this end, the senior leadership team has been restructured so that it is better aligned with subject leadership and enables the school effectively to share and build on its good practice.
- Aspiring leaders are effectively identified and encouraged to take responsibility and this promotes accountability and a good understanding of the school's data. The flexible use of staff's strengths enables leadership to be very responsive to the school's needs; these are accurately identified through its rigorous monitoring systems. Thus the school has identified that there are some inconsistencies in the management of departments and performance management has been adapted to address these needs. This ensures the maintenance of improvements throughout the school.
- The principal has not shirked in holding staff to account for the quality of teaching and learning.

Performance management systems are rigorous, set clear targets for improving teaching and are successful in raising its quality.

- The leadership and management of the sixth form have greatly improved. This is indicative of the effectiveness of the school's own monitoring and its improvement plans. This has raised the expectations of teachers and ensured that teaching in the sixth form is at least consistently good. The main school's effective tracking systems are now used in the sixth form. This provides an accurate picture of strengths and weaknesses in teaching and any underachievement of students. Thus weaknesses are swiftly identified and effectively addressed.
- The range of subjects studied is carefully matched to students' needs. The recent improvements in the progress of sixth formers have come about because courses meet students' needs. Improvements in the development of students' spiritual, moral, social and cultural understandings have been promoted by the two 'culture' days which allow students to experience activities and to consider in greater depth ideas which challenge and extend their understanding of the world.
- **The governance of the school:**
 - is effective because of the strong leadership of the Chair of the Governing body, who ensures all governors take an active role in challenging the school and holding it to account. Governors look in detail at the running of the school
 - ensures that the school is held to account for the progress of all groups of students, especially those who are eligible for the extra funding through the pupil premium and students who have a statement of special educational needs or supported at school action plus
 - appreciates the need for good financial management and value for money and has thus ensured that the school's new buildings provide excellent sporting facilities.

What inspection judgements mean

School		
Grade	Judgement	Description
Grade 1	Outstanding	An outstanding school is highly effective in delivering outcomes that provide exceptionally well for all its pupils' needs. This ensures that pupils are very well equipped for the next stage of their education, training or employment.
Grade 2	Good	A good school is effective in delivering outcomes that provide well for all its pupils' needs. Pupils are well prepared for the next stage of their education, training or employment.
Grade 3	Requires improvement	A school that requires improvement is not yet a good school, but it is not inadequate. This school will receive a full inspection within 24 months from the date of this inspection.
Grade 4	Inadequate	<p>A school that has serious weaknesses is inadequate overall and requires significant improvement but leadership and management are judged to be Grade 3 or better. This school will receive regular monitoring by Ofsted inspectors.</p> <p>A school that requires special measures is one where the school is failing to give its pupils an acceptable standard of education and the school's leaders, managers or governors have not demonstrated that they have the capacity to secure the necessary improvement in the school. This school will receive regular monitoring by Ofsted inspectors.</p>

School details

Unique reference number	104118
Local authority	Solihull
Inspection number	400685

This inspection of the school was carried out under section 5 of the Education Act 2005.

Type of school	Secondary
School category	Community
Age range of pupils	11–19
Gender of pupils	Mixed
Gender of pupils in the sixth form	Mixed
Number of pupils on the school roll	1235
Of which, number on roll in sixth form	160
Appropriate authority	The governing body
Chair	Hugh Hendry
Principal	Rob Hawkins
Date of previous school inspection	2 December 2009
Telephone number	0121 788 4100
Fax number	0121 788 4101
Email address	office@smiths-wood.solihull.sch.uk

Any complaints about the inspection or the report should be made following the procedures set out in the guidance 'raising concerns and making complaints about Ofsted', which is available from Ofsted's website: www.ofsted.gov.uk. If you would like Ofsted to send you a copy of the guidance, please telephone 0300 123 4234, or email enquiries@ofsted.gov.uk.

You can use Parent View to give Ofsted your opinion on your child's school. Ofsted will use the information parents and carers provide when deciding which schools to inspect and when and as part of the inspection.

You can also use Parent View to find out what other parents and carers think about schools in England. You can visit www.parentview.ofsted.gov.uk, or look for the link on the main Ofsted website: www.ofsted.gov.uk

The Office for Standards in Education, Children's Services and Skills (Ofsted) regulates and inspects to achieve excellence in the care of children and young people, and in education and skills for learners of all ages. It regulates and inspects childcare and children's social care, and inspects the Children and Family Court Advisory Support Service (Cafcass), schools, colleges, initial teacher training, work-based learning and skills training, adult and community learning, and education and training in prisons and other secure establishments. It assesses council children's services, and inspects services for looked after children, safeguarding and child protection.

Further copies of this report are obtainable from the school. Under the Education Act 2005, the school must provide a copy of this report free of charge to certain categories of people. A charge not exceeding the full cost of reproduction may be made for any other copies supplied.

If you would like a copy of this document in a different format, such as large print or Braille, please telephone 0300 123 4234, or email enquiries@ofsted.gov.uk.

You may copy all or parts of this document for non-commercial educational purposes, as long as you give details of the source and date of publication and do not alter the information in any way.
