The setting **meets legal requirements for early years settings**

Summary of key findings for parents

The provision meets requirements

- The manager has good knowledge of the learning and development requirements of the Early Years Foundation Stage. This helps staff plan suitable activities to promote all areas of learning.
- The setting is well-led and managed. The manager evaluates staff training needs to further extend their skills and knowledge and implements effective improvements to bring about positive changes for all children.
- Staff have good knowledge of safeguarding procedures as they are able to describe signs that would give them cause for concern, and know how to refer these on.
- Staff provide opportunities for physical play, developing children's growing awareness of healthy lifestyles.
- Staff have good relationships with parents, this enables parents to feel informed about children's progress. Consequently, children benefit from the continuity of learning between home and holiday club.
- Staff provide good support for children and parents and as a result, children are well prepared to progress in their next stage of learning.
- The setting has a key-person system, which helps to ensure children feel comfortable and secure in their environment.

There were no children present when this inspection took place. The findings in this report are based on evidence gathered from discussions with those who care for the children and an inspection of the premises, equipment and relevant documentation. Where there are no children present, no judgement is made on the quality of the early years provision as there is no reliable evidence on which to assess its impact on children. The report states whether the provider continues to meet the requirements of registration.

Inspection activities

- The inspector discussed with the manager how she plans the educational programmes, assesses children's abilities and plans for their progress, her arrangements for meeting safeguarding requirements and ways of working with parents.
- The inspector discussed the policies and documents the manager will use when caring for children.
- The inspector discussed continuous improvement with the manager.
- The inspector viewed the spaces, toys, resources and equipment available for children's use.
