### Summary of key findings for parents

#### The provision meets requirements

- Staff demonstrate a good understanding of their responsibilities to protect the children in their care. They are aware of the typical signs of child abuse and understand the reporting procedures that help to keep children safe from abuse or neglect. Risk assessments are carried out to ensure the premises are safe and hazards are minimised.
- The club environment is organised well to provide children with easy access to a good range of developmentally appropriate toys and resources. This would enable younger children to play and learn independently.
- The well-resourced outdoor areas ensure that children of all ages have exciting and stimulating places to play, such as climbing trees and sand trays. Continuous access to outdoors helps to promote children's physical health and well-being.
- All staff hold suitable first-aid qualifications, which would help to promote children's health and welfare in the event of an accident.
- Procedures to recruit staff and check their suitability are robust to ensure children's safety. Staff are well qualified and experienced, so they are able to support children's care and learning. They demonstrate that they would provide an appropriate range of experiences to challenge and motivate children.
- Suitable links with the host schools helps to ensure that children would benefit from consistency in their health, safety and welfare.

There were no children present when this inspection took place. The findings in this report are based on evidence gathered from discussions with those who care for the children and an inspection of the premises, equipment and relevant documentation. Where there are no children present, no judgement is made on the quality of the early years provision as there is no reliable evidence on which to assess its impact on children. The report states whether the provider continues to meet the requirements of registration.
