

Compliance action taken for childcare provision

109927/C279836

Date: 26/04/2016

Summary of outcome

On 16 March 2016, we received a notification from an outside agency that raised concerns about the provider. On 22 April 2016 we visited the provider to see whether the setting was meeting the requirements of the Early Years Foundation Stage; in particular the requirement relating to the administration of medicines. We found that the provider has reviewed the settings procedures for the administration of medication and provided training for all staff. However, the provider admitted that they have failed to notify Ofsted of this significant event. This is an offence under the Early Years Foundation Stage welfare requirements. We issued the provider with a warning letter, which they accepted. We may take this into account if they commit an offence again when making a decision whether to prosecute. The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.

For further information please read [Ofsted's Enforcement Policy](#).
