

Childminder Report

Inspection date	26 October 2016
Previous inspection date	12 February 2016

The quality and standards of the early years provision	This inspection:	Not met
	Previous inspection:	Not met

Summary of key findings for parents

The provision does not meet requirements

- The childminder does not meet the Early Years Register and Childcare register requirements. She has failed to obtain required suitability checks for all adults living on the premises, and to inform Ofsted as required. She does not hold a current paediatric first-aid qualification and has failed to renew public liability insurance.
- The childminder does not maintain daily records of children's names and hours of attendance. Not all required documentation is available for inspection, including a written statement for safeguarding and complaints. The childminder knows how to report a concern about a child's welfare and keeps her premises safe. However, she does not know all the signs that a child may be at risk of harm.
- The childminder does not have sufficient knowledge and understanding of the learning and development requirements and how to identify children's next steps in learning. She is not aware of her responsibility to complete a progress check for children aged between two and three years, and to share this with parents.
- The childminder does not evaluate her practice and does not keep her knowledge up to date. The action from the previous inspection in relation to first-aid has not been met.

There were no children present when this inspection took place. The findings in this report are based on evidence gathered from discussions with those who care for the children and an inspection of the premises, equipment and relevant documentation. Where there are no children present, no judgement is made on the quality of the early years provision as there is no reliable evidence on which to assess its impact on children. The report states whether the provider continues to meet the requirements of registration.
