Summary of key findings for parents

The provision does not meet requirements

- The provider fails to implement effective recruitment procedures. They do not consistently gain and record information about the identity checks and vetting processes they carry out to check staff's suitability. This is also a breach of the Childcare Register requirements.
- Staff know the importance of planning an interesting range of activities. The play spaces are welcoming and safe. Staff know to allow children to make decisions about what they want to do. There is a wide selection of resources and activities available. Staff understand the need to supervise children well.
- Staff provide healthy snacks and promote healthy lifestyles. They understand the need to use positive strategies to promote good behaviour and teamwork. All staff are first aid qualified. They have an appropriate knowledge of the routes of referral in the event of any safeguarding concerns.
- Staff recognise the importance of evaluating their practice. They have regular supervision and training opportunities.

There were no children present when this inspection took place. The findings in this report are based on evidence gathered from discussions with those who care for the children and an inspection of the premises, equipment and relevant documentation. Where there are no children present, no judgement is made on the quality of the early years provision as there is no reliable evidence on which to assess its impact on children. The report states whether the provider continues to meet the requirements of registration.
