

Compliance action taken for childcare provision

EY486534/C299348

Date: 02/02/2017

Summary of outcome

On 7 November 2016, the provider notified us of a significant event. This notification means that the provider has met their legal responsibility as set out in the Childcare Register to notify Ofsted of a significant event. On the same day we also received two concerns about the same incident. We spoke with the provider who informed us that following the incident they took prompt and effective action. The risk assessments and the procedures for collection of children has been reviewed and updated. High visibility jackets are worn on every occasion, wrist restraints are used for younger children and older children hold on to a rope. Staff now have a better understanding of sharing information with the manager and parents. We are satisfied with the improvements made by the provider and we shall not take any further action in respect of this incident. The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.

For further information please read the *Early years compliance handbook* which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted .
