

Compliance action taken for childcare provision

EY385381/C304477

Date: 21/03/2017

Summary of outcome

On 16 January 2017 we carried out an inspection which judged that the overall effectiveness of the setting was inadequate and did not meet the needs of the children who attend.

Following our inspection we served a welfare requirement notice that required the provider to:

- ensure that children are supervised effectively at all times to meet their individual needs and keep them safe
- ensure that staff implement good hygiene practices with children to prevent the spread of infection, particularly at snack and meal times in the pre-school room
- ensure children's behaviour is managed effectively.

We carried out a visit on 7 February 2017 to assess compliance with the notice. We found that the provider had taken appropriate action to address the weaknesses that had been raised. Staff had received further guidance and training and policies had been reviewed and amended where necessary. Children were seen to be settled and happy during the visit and the atmosphere was calm. Staff were seen to remind children of hygiene routines and ensure these were in place. Staff deployment was effective to ensure children's needs were being met.

The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those

registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
