

## **Compliance action taken for childcare provision**

EY281231/C317785

**Date:** 07/07/2017

### **Summary of outcome**

On 19 June 2017, the provider notified us of an incident which took place during an outing to a park. The notification means that the provider met their legal responsibility as set out in the Early Years Foundation Stage welfare requirements to notify Ofsted of any significant events. We needed to check that the Early Years Foundation Stage safeguarding and welfare requirements were being met; in particular, the requirements that relate to, risk assessments, first aid, staff:child ratios and accident or injury.

On 5 July 2017, we carried out an unannounced visit to the nursery. We found that following the incident, the provider had reviewed and updated their risk assessments for off-site activities. We found that there were suitably trained first aiders and appropriate staff ratios to meet the needs of the children.

We are satisfied with the action taken by the provider.

The provider remains registered with Ofsted.

### **Publication of compliance action**

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website

for a period of five years commencing on the date we complete our investigation.
