

Compliance action taken for childcare provision

EY479285/C323785

Date: 26/08/2017

Summary of outcome

On 18 August 2017, the provider notified us of an accident that occurred at the setting. The notification means that the provider met their legal responsibility as set out in the early years foundation stage welfare requirements to inform Ofsted of any serious accident at the setting.

We looked into this concern to see whether the provider was meeting the Statutory Framework for the Early Years Foundation Stage requirements. In particular, the requirements relating to accident and injury and adult/child ratios.

We spoke with the provider and liaised with outside agencies. We conducted an unannounced visit on 23 August 2017. We viewed the premises, looked at documentation and held discussions with the provider and manager. We found that the provider had taken action to make improvements following the accident. Risk assessments and staff deployment had been reviewed and additional safety measures put in place to avoid a reoccurrence.

The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.

For further information please read the *Early years compliance handbook* which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted .
