Compliance action taken for childcare provision

EY427937/C331635

Date: 23/01/2018

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2.

If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 13 November 2017, we received concerns that this provider was not meeting some of these requirements.

We found that the provider had failed to tell Ofsted about an incident that called into question the suitability of someone working with children. This is a breach of requirements. We are satisfied that the provider will not do this again, and that they now understand their responsibilities.

We also sent the provider a notice to improve. The provider will be able to give parents further information about this.

Actions needed:

ensure that adult:child ratios are met at all times, and that there is evidence to support that they are met by 5 February 2018

ensure that responsibilities under the Data Protection Act are met. This is with specific regard to registration with the Information Commissioner's Office by 5 February 2018.

The provider responded to confirm that they are now ensuring that staff are consistently signing in and out each day. Additionally the setting are now
registered with the ICO.

The provider is still registered with Ofsted.

**Publication of compliance action**

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
