Notes: 1. For JRS indicators scores are calculated so that; grades 1 and 2 equate to a score of 1; grade 3, 4 and 5 equate to scores of 2, 3 and 4 respectively; and grades 6 and 7 equate to a score of 5.

For non-JRS indicators scores are calculated so that the 'best' 10% of LEAs are scored as 1, the next 20% as 2, the middle 40% as 3, the next 20% as 4, and the 'worst' 10% are scored as 5.

Variables given a weighting when calculating average. The weighting applied is given in brackets.
 If the corresponding 'performance' indicator is scored at 1, variable is also automatically given a score of 1.
