

Compliance action taken for childcare provision

Ref: EY310467/C352540

Date: 18 July 2018

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 9 July 2018 the provider notified us that there had been a significant event. The notification means that the provider met their legal responsibility as set out in the early years foundation stage welfare requirements. On 15 July 2018 we carried out an announced visit and found: the provider had updated risk assessments and policies; the provider had put additional precautions in place; and, the provider had organised specific training for the staff team. We also found that the provider was not meeting some of the requirements in relation to recording identity checks and vetting processes correctly and ensuring that the paediatric first aid (PFA) certificates are made available to the parents. We sent out a Notice to Improve with two actions. The provider has addressed these actions by: reviewing and updating how the identity checks and vetting processes are recorded; and, making sure that all relevant documents are made available to the parents. We are satisfied with the action taken by the provider. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
