

Compliance action taken for childcare provision

Ref: EY385734/4078263

Date: 11 December 2018

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 13 November 2018, we inspected this provider's setting and found that they were not meeting some of these requirements. We served a Welfare Requirements Notice. This is a legal notice that requires the provider to take the actions within the timescales set out in the inspection report.

On 10 December 2018, we carried out an unannounced visit to the setting to check that the provider was complying with the welfare requirements notice. We found that the provider had taken some action to meet requirements. However, we found some requirements still not met. We issued a further Welfare Requirements Notice that requires the provider to take the following action by 9 January 2018:

- develop the arrangements for monitoring and supervision of staff, and ensure that they have a clear understanding of their role and responsibilities to support children's welfare and learning
- ensure a regular, two-way flow of information is established with all parents and other professionals, and work together to complement the care and learning that takes place in the nursery.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.
