Compliance action taken for childcare provision

Ref: EY299794/4128297

Date: 1 February 2019

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 16 January 2019, we received information that raised concerns regarding general suitable people. We carried out an unannounced visit to the provider and have issued them with a Notice of action to Improve related to a separate matter. This is a legal notice that requires the provider to take the action below within the timescale set out. The provider will be able to give parents further information about this. The provider is still registered with Ofsted.
Action needed:
take all necessary steps to reduce hazards in the premises, through effective risk assessment, particularly relating to the storage of alcohol, by 08 February 2019
The provider subsequently took appropriate action to make sure the environment is safe and suitable for children.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
