Monitoring visit

Inspected under the social care common inspection framework

Information about this children's home

This home provides care for up to five children who have a learning disability. The home is operated by a national, private organisation.

The registered manager has recently resigned from this service. An interim manager is covering this post.

Inspection date: 30 January 2019

This monitoring visit

This monitoring visit was undertaken due to serious and widespread concerns being identified at previous inspections.

This children's home was judged to have declined in effectiveness at the interim inspection on 5 November 2018. At that inspection, serious weaknesses were identified in how well children were helped and protected. These concerns related to poor leadership and management oversight. In addition, there was significant concern that the staff did not have the skills required to safely care for the child who was living in this home. As a result, Ofsted served a restriction notice on this service.

Managers recognised that the situation at the home had become untenable. As a result, the child's placement there was ended swiftly.

During this inspection, the inspector concluded that the home was not safe to admit new children. This was due to the damage to the property that posed a fire risk. As a result, Ofsted has reached the decision that the restriction will remain in place.

Ofsted will continue to monitor this service and review the restriction of accommodation.
