

## **Compliance action taken for childcare provision**

Ref: 319370/4157603

Date: 28 March 2019

### **Summary of outcome**

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at [www.gov.uk/government/publications/early-years-foundation-stage-framework--2](http://www.gov.uk/government/publications/early-years-foundation-stage-framework--2). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 15 February 2019, the provider notified us of a health and safety incident. The notification means that the provider met their legal responsibility as set out in the early years foundation stage welfare requirements to notify Ofsted of any such incidents. On 27 March 2019, we carried out a regulatory visit and found: the provider had completed a thorough internal investigation of the incident; the provider has effective safeguarding procedures in place; the provider has reviewed health and safety procedures in the nursery; staff have received specific training for dealing with hazardous substances; and, the provider has reviewed risk assessments. The provider is still registered with Ofsted.

### **Publication of compliance action**

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
