

Compliance action taken for childcare provision

Ref: EY475060/4158224

Date: 8 April 2019

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early year's foundation stage, which you can find at <https://www.gov.uk/government/publications/early-years-foundation-stage-framework>. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 14 February 2019, the provider made a notification to Ofsted. The notification means that the provider met their legal responsibility as set out in the early years foundation stage to notify Ofsted of any significant event which is likely to affect the provider's suitability to look after children.

We liaised with other agencies and received further information from the provider. On 11 March 2019, we conducted an announced visit to discuss the notification.

We found that the provider had taken action to meet the statutory requirements for registration on the early years register. The provider had reviewed their procedures to ensure that staff are suitably deployed across the setting to ensure the adult to child ratio and qualification requirements are met at all times. The provider had also reviewed their procedures for dealing with children who have a temperature.

The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
