

Compliance action taken for childcare provision

Ref: EY284408/4184872

Date: 7 May 2019

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2.

If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 19 March 2019, we inspected the nursery and found that the provider was not meeting some of these requirements. As a result, we served a welfare requirements notice. This is a legal notice that requires the provider to take the actions below within the timescales set out. The inspection report will be able to give parents further information about this notice. The provider is still registered with Ofsted.

Actions needed:

ensure that at least half of all staff caring for children aged under two years are suitably experienced and have completed training that specifically addresses the care of babies by 26 April 2019

ensure that the premises, including overall floor space and outdoor spaces, are fit for purpose and suitable for the age of children cared for by 26 April 2019

ensure there is a separate baby room for children under the age of two years by 26 April 2019

ensure the deployment of staff meets the individual needs of all children by 26 April 2019

ensure that robust risk assessments are in place to ensure that children are not exposed to risk of harm, this is with specific regard to, but not limited to, small items that present a choking hazards to young children by 26 April 2019

ensure that children's records include details of every parent and/or carer who is known to the provider, including information about any other person who has parental responsibility for the child and who the child normally lives with by 26 April 2019.

We are satisfied with the action taken by the provider and next steps will be an inspection.
