

## **Compliance action taken for childcare provision**

Ref: EY279910/4200436

Date: 20 May 2019

### **Summary of outcome**

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at [www.gov.uk/government/publications/early-years-foundation-stage-framework--2](http://www.gov.uk/government/publications/early-years-foundation-stage-framework--2). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 4 April an inspection was carried out and we found that the provider was not meeting all of the early years foundation stage requirements. The provider will be able to give parents further information about this. The provider is still registered with Ofsted. We have served a welfare requirements notice that requires the provider to take the action below within the timescale set.

Actions needed by 23 April 2019:

improve knowledge and risk assessments to provide a safe environment for children, with particular regard to the storage of plastic bags, access to glass objects and small toys and resources

ensure children are always supervised appropriately, to keep them safe from harm

ensure written permission is obtained for each particular medicine and records for the administration of medicine are completed in full

ensure the premises is kept clean, to promote children's good health effectively.

We have served a notice to improve that requires the provider to take the action below within the timescale set.

Action needed by 07 May 2019:

plan and provide a broad range of learning experiences, to keep children consistently engaged and support them to make good progress.

On 30 April 2019 a monitoring visit was carried out and we found the provider has taken

appropriate action to address the weaknesses relating to risk assessment, supervision of children, suitability of the premises and medication. The provider has taken steps to work towards addressing the action relating to the educational programmes. However, the provider is not meeting all the requirements for the Childcare register. We have served a notice to improve that requires the provider to take the action below within the timescale set out. The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Actions needed by 14 May 2019:

minimise the risks to children's health and safety, particularly regarding to the storage of medication in the toilet.

We are satisfied with the action the provider has taken. The provider remains registered with Ofsted.
