

Compliance action taken for childcare provision

Ref: 101857/4235316

Date: 6 June 2019

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 22 May 2019, the provider notified us of a required matter. The notification means that the provider met their legal responsibility as set out in the early years foundation stage welfare requirements to notify Ofsted of significant incidents. The provider will be able to give parents further information about this.

Following the incident, the provider took prompt and effective action to ensure the premises are secure, staff are deployed effectively, and children are supervised at all times.

The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.

For further information please read the Early years compliance handbook which can be
