

Compliance action taken for childcare provision

Ref: EY418838/4275843

Date: 19 July 2019

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 8 July 2019 the provider notified Ofsted of an accident that had resulted in injury to a child. On 10 July 2019 we visited the provider to check that they were meeting requirements. The inspector found that the provider had taken prompt and effective action to complete an appropriate risk assessment and put arrangements in place to make sure the accident could not happen again. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
