

Compliance action taken for childcare provision

Ref: EY543049/4179120

Date: 22 July 2019

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early year's foundation stage, which you can find at <https://www.gov.uk/government/publications/early-years-foundation-stage-framework>. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 12 March 2019, the provider notified Ofsted of a safeguarding event. The notification means that the provider met their legal responsibility, as set out in the early years foundation stage, to notify Ofsted of a significant event.

We reviewed the provider's investigation into the notification made. We also spoke with the provider regarding the incident. We found that the provider has taken the necessary action to meet the requirements for registration. The provider has reviewed how information is shared with all staff so that they are now fully aware of all children's individual needs and how to meet them. The provider has also reviewed risk assessments and staff deployment to ensure that risks have been minimised and that children are always appropriately supervised. Staff have attended training to ensure that they are aware of the changes and to ensure children's safety.

The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
