

Compliance action taken for childcare provision

Ref: 2517516/4327382

Date: 2 October 2019

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2

If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 3 September 2019, the provider made a notification to Ofsted relating to a safeguarding issue. This means they met their legal responsibility, as set out in the early years foundation stage welfare requirements, to notify Ofsted of a significant event. On 9 September 2019, we also received concerns that the provider was not meeting some of the requirements in relation to the same issue. We visited the provider and found that they had taken appropriate action to make sure that all requirements relating to safeguarding practice and procedures are now met. We are satisfied with the action taken. The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
