## Main inspection findings

### Part 3. Welfare, health and safety of pupils

#### *Paragraph 6, 7(a) and (b)*

- The previous inspection in December 2018 identified that senior leaders had not ensured that all aspects of safeguarding were thoroughly completed. Staff did not receive adequate training; the designated safeguarding lead was not proficient in her role and records of safeguarding incidents were not sufficiently detailed.
- Senior leaders and managers wrote a comprehensive action plan in response to these failings. This inspection identified that these actions have been implemented successfully to address all the above issues.
- A new safeguarding team is now in place. This team has received designated safeguarding lead training from the local authority. The team has worked closely with the local authority in auditing the school's safeguarding practices. This team meets regularly to ensure that safeguarding remains a priority.
- Staff are receiving regular safeguarding update training. Systems are in place to ensure that all staff have a full understanding of terminology and the role they play in safeguarding pupils. Several staff were spoken to during this inspection and demonstrated that they were knowledgeable about all aspects of child protection and safeguarding.
- The chair of governors has been instrumental in designing a bespoke electronic recording system so that incidents are recorded, and concerns are followed up appropriately. He has also developed a detailed audit tool to regularly check all aspects of pupil safety.
- The school has a comprehensive safeguarding policy that gives parents, carers and staff the information they need should they have any safeguarding concerns. It follows the guidance from all recent government documentation. This policy is available on the school's website.
- These standards are now met.

## Part 8. Quality of leadership in and management of schools

### *Paragraph 34(1)(a), (b) and (c), 34(2)*

- The inspection of December 2018 identified that not all of the independent school standards had been met consistently. Therefore, leaders and managers were not fulfilling their responsibilities effectively and demonstrating good skills and knowledge appropriate to their roles.
- Senior leaders and managers have written and implemented an action plan which has ensured that all areas of safeguarding are now regularly and meticulously reviewed. All staff received further training. Clear lines of responsibility around safeguarding have now been firmly established.
- This inspection identified that all actions had been successfully implemented. There is now a clear line of accountability for all safeguarding roles. The safety and well-being of pupils has an even higher priority than before.
- These standards are now met.

### Statutory requirements of the early years foundation stage

- Inspectors identified during the inspection of December 2018 that Section 3, paragraph 3.2 of the early years foundation stage statutory welfare requirements was not met. Issues were identified around staff training, the role of the designated safeguarding lead and record-keeping.
- The action plan, written and implemented successfully by senior leaders and managers, addressed all of the issues identified during the inspection.
- These statutory requirements are now met.

## **Compliance with regulatory requirements**

The school meets the requirements of the schedule to the Education (Independent School Standards) Regulations 2014 ('the independent school standards') and associated requirements that were checked during this inspection. This included the standards and requirements that the school was judged to not comply with at the previous inspection. Not all the standards and associated requirements were checked during this inspection.

### **The school now meets the following independent school standards**
