

Compliance action taken for childcare provision

Ref: EY421382/4373406

Date: 6 December 2019

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 1 November 2019 we received concerns about an incident where this provider was not meeting some of these requirements. Although the provider was in breach of requirements at the time of the incident, they have taken action to improve staff deployment to ensure that all children are appropriately supervised. They have improved risk assessments and held meetings with staff to ensure they know their roles and responsibilities. They have worked with staff to improve behaviour management so that any risks to children are minimised. The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
