

## **Compliance action taken for childcare provision**

Ref: EY489675/C353187

Date: 9 August 2019

### **Summary of outcome**

Providers registered on the compulsory and voluntary parts of the childcare register must meet registration requirements for the Childcare Register. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 16 July 2018, Ofsted received a notification from other agencies regarding the suitability of individuals associated with the setting. We liaised with other professionals before undertaking a visit to the premises. Here we found the provider had an appropriate policy and procedure to safeguard children and staff received training in this area. However, the provider failed to notify Ofsted of an event which would affect the suitability of individuals working at the setting.

Actions needed by 9 January 2019

ensure any significant event that is likely to affect the suitability of any person caring for children or working on the premises, is notified to Ofsted without delay.

The provider responded appropriately to the required action. The provider remains registered with Ofsted.

### **Publication of compliance action**

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
