

Compliance action taken for childcare provision

Ref: EY239703/4245836

Date: 13 January 2020

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 4 June 2019 the provider notified us of a significant incident. We visited and found that the childminder had failed to notify us about a separate significant event likely to impact on the suitability of a household member. This is a breach of requirement. However, the childminder is clear about their responsibility to notify Ofsted of such events in the future. As a result, we took no further action in respect of this breach. The childminder will be able to give parents further information about this. The childminder is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
