

Compliance action taken for childcare provision

Ref: EY542728/4421244

Date: 14 February 2020

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 10 January 2020, we received a provider notification about concerns relating to children's dietary requirements. The notification means that the provider met their legal responsibility as set out in the early years foundation stage welfare requirements: to notify Ofsted of any significant event which is likely to affect the suitability of the early years provider or any person who cares for, or is in regular contact with, children on the premises to look after children.

On 23 January 2020, we spoke to the regional director by telephone and reviewed all information that was sent to us. We found the provider had taken satisfactory action to improve risk assessments, training and procedures for meeting children's dietary needs. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
