Monitoring visit
Inspected under the social care common inspection framework

Information about this children's home

A private company operates this home. It is registered to provide care and accommodation for up to six young people who may have social and/or emotional difficulties.

The home has no registered manager. An interim manager is currently in post.

Inspection date: 18 March 2020

This monitoring visit

This children's home was judged declined in effectiveness at the interim inspection on 3 February 2020. Following that inspection, the home's registration was suspended from 4 February to 27 April 2020 inclusive.

A monitoring inspection took place by telephone on 18 March 2020, to ensure that the provider is continuing to be compliant with the suspension of registration of the home and to review any progress. The responsible individual confirmed that there are currently no children living at the home.

The provider has put in place an action plan to address concerns identified at the inspection on 4 February 2020. However, limited progress has been made. Concerns regarding staff sufficiency, skills and experience remain. There is no registered manager in post. The interim manager has been in post for a few weeks but is due to leave in April 2020. A new manager has been identified but is currently working elsewhere in the company three days a week. Consequently, there is not strong leadership in place to drive forward the improvements required.

Staff have completed some further training. Additional training on topics such as medication, drug awareness, safeguarding and key working has been identified but is yet to take place. The managers are yet to review staff's understanding and application of training they have completed.

1

The managers have failed to take any action over practice concerns regarding one member of staff; these concerns require investigation.

The managers have not addressed shortfalls identified at the full inspection in August 2019, such as safer recruitment, first aid training and responding to complaints.

The requirements will be reviewed at a subsequent inspection.

Recommendations

■ Staff should understand factors that affect children's motivation to behave in a socially acceptable way. Staff should encourage an enthusiasm for positive behaviour through the use of positive behaviour strategies in line with the child's relevant plans. ('Guide to the children's homes regulations including the quality standards', page 39, paragraph 8.13)

- When a child returns to the home after being missing from care or away from the home without permission, the responsible local authority must provide an opportunity for the child to have an independent return home interview. Homes should take account of information provided by such interviews when assessing risks and putting arrangements in place to protect each child. ('Guide to the children's homes regulations including the quality standards', page 45, paragraph 9.30)
- The registered person should have a system in place so that all serious events are notified, within 24 hours, to the appropriate people. The system should cover the action that should be followed if the event arises at the weekend or on a public holiday. Notification must include details of the action taken by the home's staff in response to the event. ('Guide to the children's homes regulations including the quality standards', page 63, paragraph 14.13)

Information about this inspection

The purpose of this visit was to monitor the action taken and the progress made by the children's home since its last Ofsted inspection.

This inspection was carried out under the Care Standards Act 2000.

Ofsted is aware of the challenges that Covid-19 is currently posing to those we inspect. During this visit, the inspectors took into consideration the impact of any measures being taken to slow the spread of Coronavirus by the home. This has included the effect these have had on staffing arrangements.
