

Compliance action taken for childcare provision

Ref: EY370800/4465848

Date: 15 July 2020

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 28 February 2020 the provider notified us of concerns relating to safeguarding children. The notification indicates that there was a delay, on this occasion, in following the correct processes. This called into question the provider's ability to implement their policies and procedures regarding safeguarding. On 6 July 2020, we held a discussion with the provider who satisfied us that since their notification, they have improved their practice in relation to safeguarding children. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
