

Compliance action taken for childcare provision

Ref: 2544915/4530911

Date: 20 July 2020

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage'. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 30 June 2020, we received a concern that a child may have sustained an injury at the nursery. The provider also notified us of this significant event. This notification means that the provider has met their legal responsibility as set out in the early years foundation stage welfare requirements to notify Ofsted of significant events.

We visited the nursery and found that the provider had taken prompt and effective action to tighten their safeguarding procedures. The action taken was to:

- provide further training for staff (Staff qualifications, training, support and skills)
- work closely with the local authority and statutory agencies (Child protection).

We are satisfied with the action taken by the provider and no further action was required by Ofsted on this matter. The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
