- The building is a former primary school, which was used until recently by the local authority as an education development centre. The North East Autism Society now has sole use of the building and grounds.

- The classrooms, corridors and computer suite are light and airy, with effective acoustic conditions. The building, outdoor learning and play areas are currently maintained to ensure the health and safety of pupils.
- The school has a secure perimeter fence and lockable gate. There are ample tarmacked play areas and some extensive grassed areas available for pupils to play. There are also seating areas and a more extensive woodland section. Leaders are in the process of installing additional internal fencing to manage pupil movement within the grounds. They expect the completion of this work by the end of July.
- External flood lighting is available in order that people can safely enter and leave the school premises around the building.
- There are water coolers positioned in the corridors outside classroom areas, which will be readily accessible and are clearly marked as 'drinking water'. Sinks in classrooms and toilets are marked as 'not drinking water'.
- There will be toilets identified for staff and for the sole use of pupils in the school building. These have sinks with hot and cold water. Hot water is at a temperature that would not pose a scalding risk.
- At the time of the inspection, some planned building work required completion. The unfinished building works included installation of separate staff toilets, installation of showers for pupils aged 11 years and over and completion of the new fire alarm system. The completion of these building works was delayed due to the COVID-19 pandemic. The visiting inspector was assured by the headteacher and information from the contractors that these required building works would be finalised within three weeks. The North East Autism Society have their site manager coordinating this building work to ensure that it remains on course for completion prior to the school's requested opening date in September 2020.
- Leaders have identified a room for short-term medical care of pupils when required. The room is appropriately situated near a toilet. The room has a wash basin with hot and cold water. The school have ordered a day bed, although this had not arrived at the time of the site visit.

- The complaints policy now meets the requirements of the ISS. However, at the start of the inspection, the policy required refinements, particularly in how the outcomes of complaints will be communicated to the relevant parties and how records of complaints will be stored in the school. Leaders promptly addressed these aspects during the inspection.
- The complaints policy will be available on the school's website. Leaders are aware of the need to report the number of complaints registered under the formal procedure during the preceding school year.
- School leaders have ensured that all standards in Part 7 are likely to be met.
