

Compliance action taken for childcare provision

Ref: EY461031/4537630

Date: 11 August 2020

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 13 July 2020 we received a notification from the provider of a significant incident relating to a safeguarding concern.

The provider met their legal duty to inform Ofsted of a significant event within the prescribed timescales. Subsequently, we received a complaint regarding the action the provider had taken on the 10 August 2020. We conducted a regulatory telephone call on the 11 August 2020. We found the provider had reviewed the information they share with parents and the complaints procedure, to ensure that that information shared with parents keeps them up to date regarding any changes of the responsibilities of staff and that written policies are accurate. The provider will be able to give parents further information about this. The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
