

## **Compliance action taken for childcare provision**

Ref: EY498746/4553228

Date: 25 August 2020

### **Summary of outcome**

On 10 August 2020, the provider notified us of a significant event. We needed to investigate to see whether the setting was meeting the Statutory framework for the early years foundation stage relating to risk assessments and safeguarding and welfare requirements. We look into the information we receive to see if the childcare provider is meeting all legal requirements. On 18 August 2020 we carried out an unannounced visit to the premises. We found that risk assessments were not sufficiently identified and addressed to help promote children's safety and well-being, including ensuring the close supervision of children at all times. In addition to this, we found weaknesses in relation to partnership working with parents. Following our visit, we sent the provider a notice of action to improve that asks the provider to: -

obtain and share essential information with parents to help promote the safety and well-being of children by 15 September 2020

implement effective risk assessments and review these with staff to ensure children are well supervised at all times by 15 September 2020

The provider remains registered with Ofsted.

### **Publication of compliance action**

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
