

Compliance action taken for childcare provision

Ref: EY457002/4475596

Date: 28 August 2020

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On the 10 March 2020 we found that the provider had failed to notify Ofsted of a significant event, which is a requirement of their registration. On the 28 July 2020, we carried out a regulatory telephone call and on the 26 August 2020 we completed an unannounced regulatory visit. Following the visit we sent the provider a notice of action to improve (NTI) that asked the provider to;

Actions needed by 8 September 2020;

ensure all staff have an understanding of 'Working Together to Safeguard Children 2018' and to wider issues surrounding child protection.

The provider will be able to give parents further information about this.

We are satisfied with the action taken by the provider to meet the NTI. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
