

Compliance action taken for childcare provision

Ref: 2550639/4569059

Date: 24 September 2020

Summary of outcome

All early years providers must meet the legal requirements in the [Statutory framework for the early years foundation stage](#). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 03 September 2020, the provider notified us about an incident that had taken place at the nursery. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of a significant event.

On 21 September 2020 we conducted an unannounced visit to the setting. We found that the provider had identified a weakness in requirements and had taken action to improve staff's knowledge of safeguarding procedures. The provider will be able to give parents further information about this. We are satisfied with the action taken by the provider. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
