

## **Compliance action taken for childcare provision**

Ref: 2549342/4574417

Date: 5 October 2020

### **Summary of outcome**

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 11 September 2020, the provider notified us of a significant event. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of significant events which is likely to affect the suitability of the early years provider, or a person who cares for children.

On 21 September 2020, we carried out a regulatory telephone call. We found the provider was not meeting some of the requirements and had taken action to put this right. The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Action taken by the provider:

- Staff have completed additional training, enabling them to update their knowledge and understanding of the setting's safeguarding policies and procedures.
- The systems for managing the supervision of children when they move between indoor and outdoor areas have been improved.

### **Publication of compliance action**

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
