

Compliance action taken for childcare provision

Ref: EY563167/4546582

Date: 30 September 2020

Summary of outcome

Her Majesty's Chief Inspector of Education, Children's Services and Skills is leading Ofsted's work into how regulated early years and childcare providers in England have delivered child-centred practice and care, within the context of the restrictions placed on society during the COVID-19 (coronavirus) pandemic.

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 28 November 2019, we carried out an inspection and found the provider was not meeting some of these requirements. The overall effectiveness of the provision was judged to be requires improvement. The inspection report sets out the actions the provider was asked to take to meet the requirements.

On 28 September 2020, while routine inspections were suspended, we carried out an interim visit. The focus of the visit was to check whether the provider had met the safeguarding and welfare actions, raised at their last inspection.

We found that the provider has improved staff's understanding of their responsibilities to manage potential risks, and has reviewed and amended risk assessment procedures, particularly in relation to the garden, to help ensure children are kept safe.

Additionally, during the visit, we found new areas of concern. This means that the provider was not meeting other requirements as set out in the Statutory framework for the early years foundation stage. In relation to the new areas of concern, we have issued actions for the provider to take. This requires the provider to take the actions below within the timescales set out. The provider will be able to give parents further information about this.

Actions needed by 6 October 2020:

make sure that records, particularly those relating to the reporting of accidents, include sufficiently detailed information to ensure the needs of all children are met.

The provider informed us that they have introduced a system for senior staff to monitor records closely and have planned training for all staff to ensure records, including accident reports are sufficiently detailed. We are satisfied the provider has met the safeguarding and welfare action raised. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
