

Compliance action taken for childcare provision

Ref: EY501250/4586438

Date: 12 October 2020

Summary of outcome

All early years providers must meet the legal requirements in the [Statutory framework for the early years foundation stage](#). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 1 July 2020 and 22 September 2020, the provider notified us of serious accidents, both of which occurred in the outdoor play area. On 29 September a concern was received regarding the same accidents.

On 5 October 2020, we carried out a regulatory visit and found that the provider had taken action to review the risk assessments and strengthened the arrangements to supervise the garden. We found that, while the provider maintained all required records, some of these were not sufficiently clear. We have issued an action for the provider to take within the timescales set out. The provider will be able to give parents further information about this.

Action needed by 30 October 2020:

- review and improve the quality of written information to be shared with parents and other professionals, including accident records, to ensure the safe and efficient management of the setting.

3.68 Information and Records

The provider has met the action set. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to

bring about compliance with requirements on our website for a period of five years.
