

Compliance action taken for childcare provision

Ref: EY462556/4599115

Date: 22 October 2020

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 9 October 2020, the provider notified us of a significant incident. This notification means that the provider met their legal responsibility as set out in the 'Statutory framework for the early years foundation stage' to notify Ofsted of a significant event.

On 21 October 2020 we spoke with the provider. During this conversation we found that the provider had taken prompt and effective action to review procedures and risk assessments to ensure that similar incidents of this nature do not occur in the future. The provider had also reviewed and improved the procedures for carrying out regular checks on the number of children present while in the outdoor area.

The provider will be able to give parents further information about this. We are satisfied with the action taken by the provider. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance
